Beautiful

ITS ALL IN THE DETAILS

By Victoria Hutchings, Owner at Victoria Hutchings Design

"Design is so much more than what meets the eye. Design is all the little details that make a space unique and beautiful."

As a designer, I know how important it is to customize each design to fit each unique client. You can't simply go into each project and do the same thing, which is what I love most about my career; no two projects are ever the same.

Our most recent project was to transform this master bedroom. Space already had the perfect bones. The right designer is needed to make the space work and meet its full potential. Reimagining Victorian homes is what I love most! Nobody builds homes as they did back then, and there is something so dreamy about bringing those homes back to life.

BOLD DESIGN ELEMENTS

By Victoria Hutchings, Designer

Anytime I can add black elements to space, I do! It always makes any space pop and adds a mood to the room like nothing else. By painting the fireplace Black surrounded by a beautiful bright white wall, it allows the space to captivate you completely.

"IT'S ALL IN THE DETAILS"

The Before

"Adding Beautiful Black Elements
while keeping the old charm and
character"

The Woman Behind The Design

Meet Victoria Hutchings, A 26-year-old mum of one and a loving partner. Working alongside her partner Brandon as a Design X Real Estate team, helping others buy and design their dream homes.

"Working towards our goals as a family for our family."

"From Coffee to Cocktails this space is ready to be enjoyed"

Adding Colour

"Ruggable's Zareen Rug was the perfect addition to this bright, beautiful space."
