Step 1

Choosing the Best Agent for you

Most sellers use a real estate sales professional and for good reason. A skilled agent can ensure your home sells quickly and for top dollar, all while making the entire process seamless and as stress-free as possible.

OTHER REASONS TO CONSIDER USING A REAL ESTATE AGENT:

1. PRICING IS A REAL ART

The biggest factor in determining how quickly your home sells will be the price, and deciding that price is harder than it seems. It takes market expertise, experience and skill as even 1% more for your home can mean thousands to your bottom line.

2. NEGOTIATING MATTERS

Negotiating is not just presenting an offer and seeing what happens. It requires impeccable communication skills, finesse and fearlessness to achieve your best result. This requires a professional.

3. MARKETING IS COMPLEX, MULTI-PRONGED

Marketing a home today is well beyond a lawn sign and MLS®. In fact, the most successful marketing plans involve a targeted, multi-pronged approach to ensure your home is not only beautifully displayed but also visible, literally everywhere!

4. SAFE SHOWINGS ARE #1

Sellers face a unique set of challenges today with COVID-19 especially when it comes to in-person showings. We adhere to a strict set of protocols to ensure the safety of our sellers, buyers and visiting agents.

5. THE PAPERWORK IS DAUNTING

If you think doing your own taxes is a challenge, try navigating the paperwork for a real estate transaction. A great agent will dot the i's, cross the t's, ensure no deadlines are missed and your interests are protected.

What to look for in an agent

When choosing an agent, make sure they meet this profile. It makes all the difference.

- 1 HIGHLY SKILLED, REAL ESTATE AREA EXPERT**
On the pulse of all local market activity and have intricate knowledge of active and past inventory. They keep you informed and are by your side every step of the way.
- 2 MARKETING GENIUS**
They know exactly how to set the ideal price for your property, so that it sells quickly and for top dollar. They also know how to promote your listing effectively to attract the most qualified buyers.
- 3 SKILLED NEGOTIATOR**
Negotiating requires expertise and skill, period. Great agents have mastered this art and bring confidence and calm at offer time. They guide you through the negotiation process helping you understand what to include, what to give up and most importantly, when to walk away if reasonable terms cannot be reached.
- 4 SOMEONE WHO MAKES THINGS EASY**
Not only to handle the paperwork, but your agent should recommend reputable movers, contractors, and other professionals you need. Your agent does the heavy-lifting so you can sit back and the enjoy the process.

Step 2 *Pricing Smart*

First, it is important to understand that only the market can determine the ultimate value of your home. That said, choosing the optimal list price is essential to ensuring you get top dollar!

Depending on market conditions, too low, you risk not getting as much as you possibly can. Too high, you risk losing buyers, not to mention the fact that overpricing simply helps competitive homes sell faster.

To complicate this, your home is an emotional asset. It's hard to see it objectively as a "product" for sale. Finding the optimal price is an art that great agents spend their careers mastering.

Pricing today requires a combination of market expertise, an exhaustive study of similar homes for sale, previous sales and some old-fashioned street smarts.

Pricing your home right from the start will result in the highest exposure, more showings, more offers and ultimately the highest price for your home.

Setting a list price for your home is no easy task but it's a critical one.

↑ **15%**
Too high

Fewer qualified buyers bother to see the home.

15% ↓
Too Low

Risk losing \$37,500 to \$67,500 on the sale of the home.

*Home for sale in the \$250,000 - \$500,000 price range.

Step 3

Preparing Your Home to Wow

Once you've set the price, your next step in the journey is preparing your home to wow buyers from the moment they drive up.

This is more important than you might think. REALTORS® repeatedly find that people cannot visualize the potential of a home. They have to see it. That means that how your home shows now is how people see themselves in it.

They can't see past the chips, leaks, clutter and stains—in fact, they tend to focus even more on those things. You can, however, dramatically improve how your home shows with a few quick and easy fixes.

THE 3 R'S OF PREPPING YOUR HOME FOR SALE

1. REMOVE

Get rid of as much clutter as possible. Give it away, sell it at a garage sale, put it in storage, but just get it out of the house. You want your home to look spacious and tidy.

2. REPAIR

Chipped paint, cracked tiles, squeaky hinges, loose handles, leaky faucets. Fix everything you can. If you need a handy person or contractor, we can help!

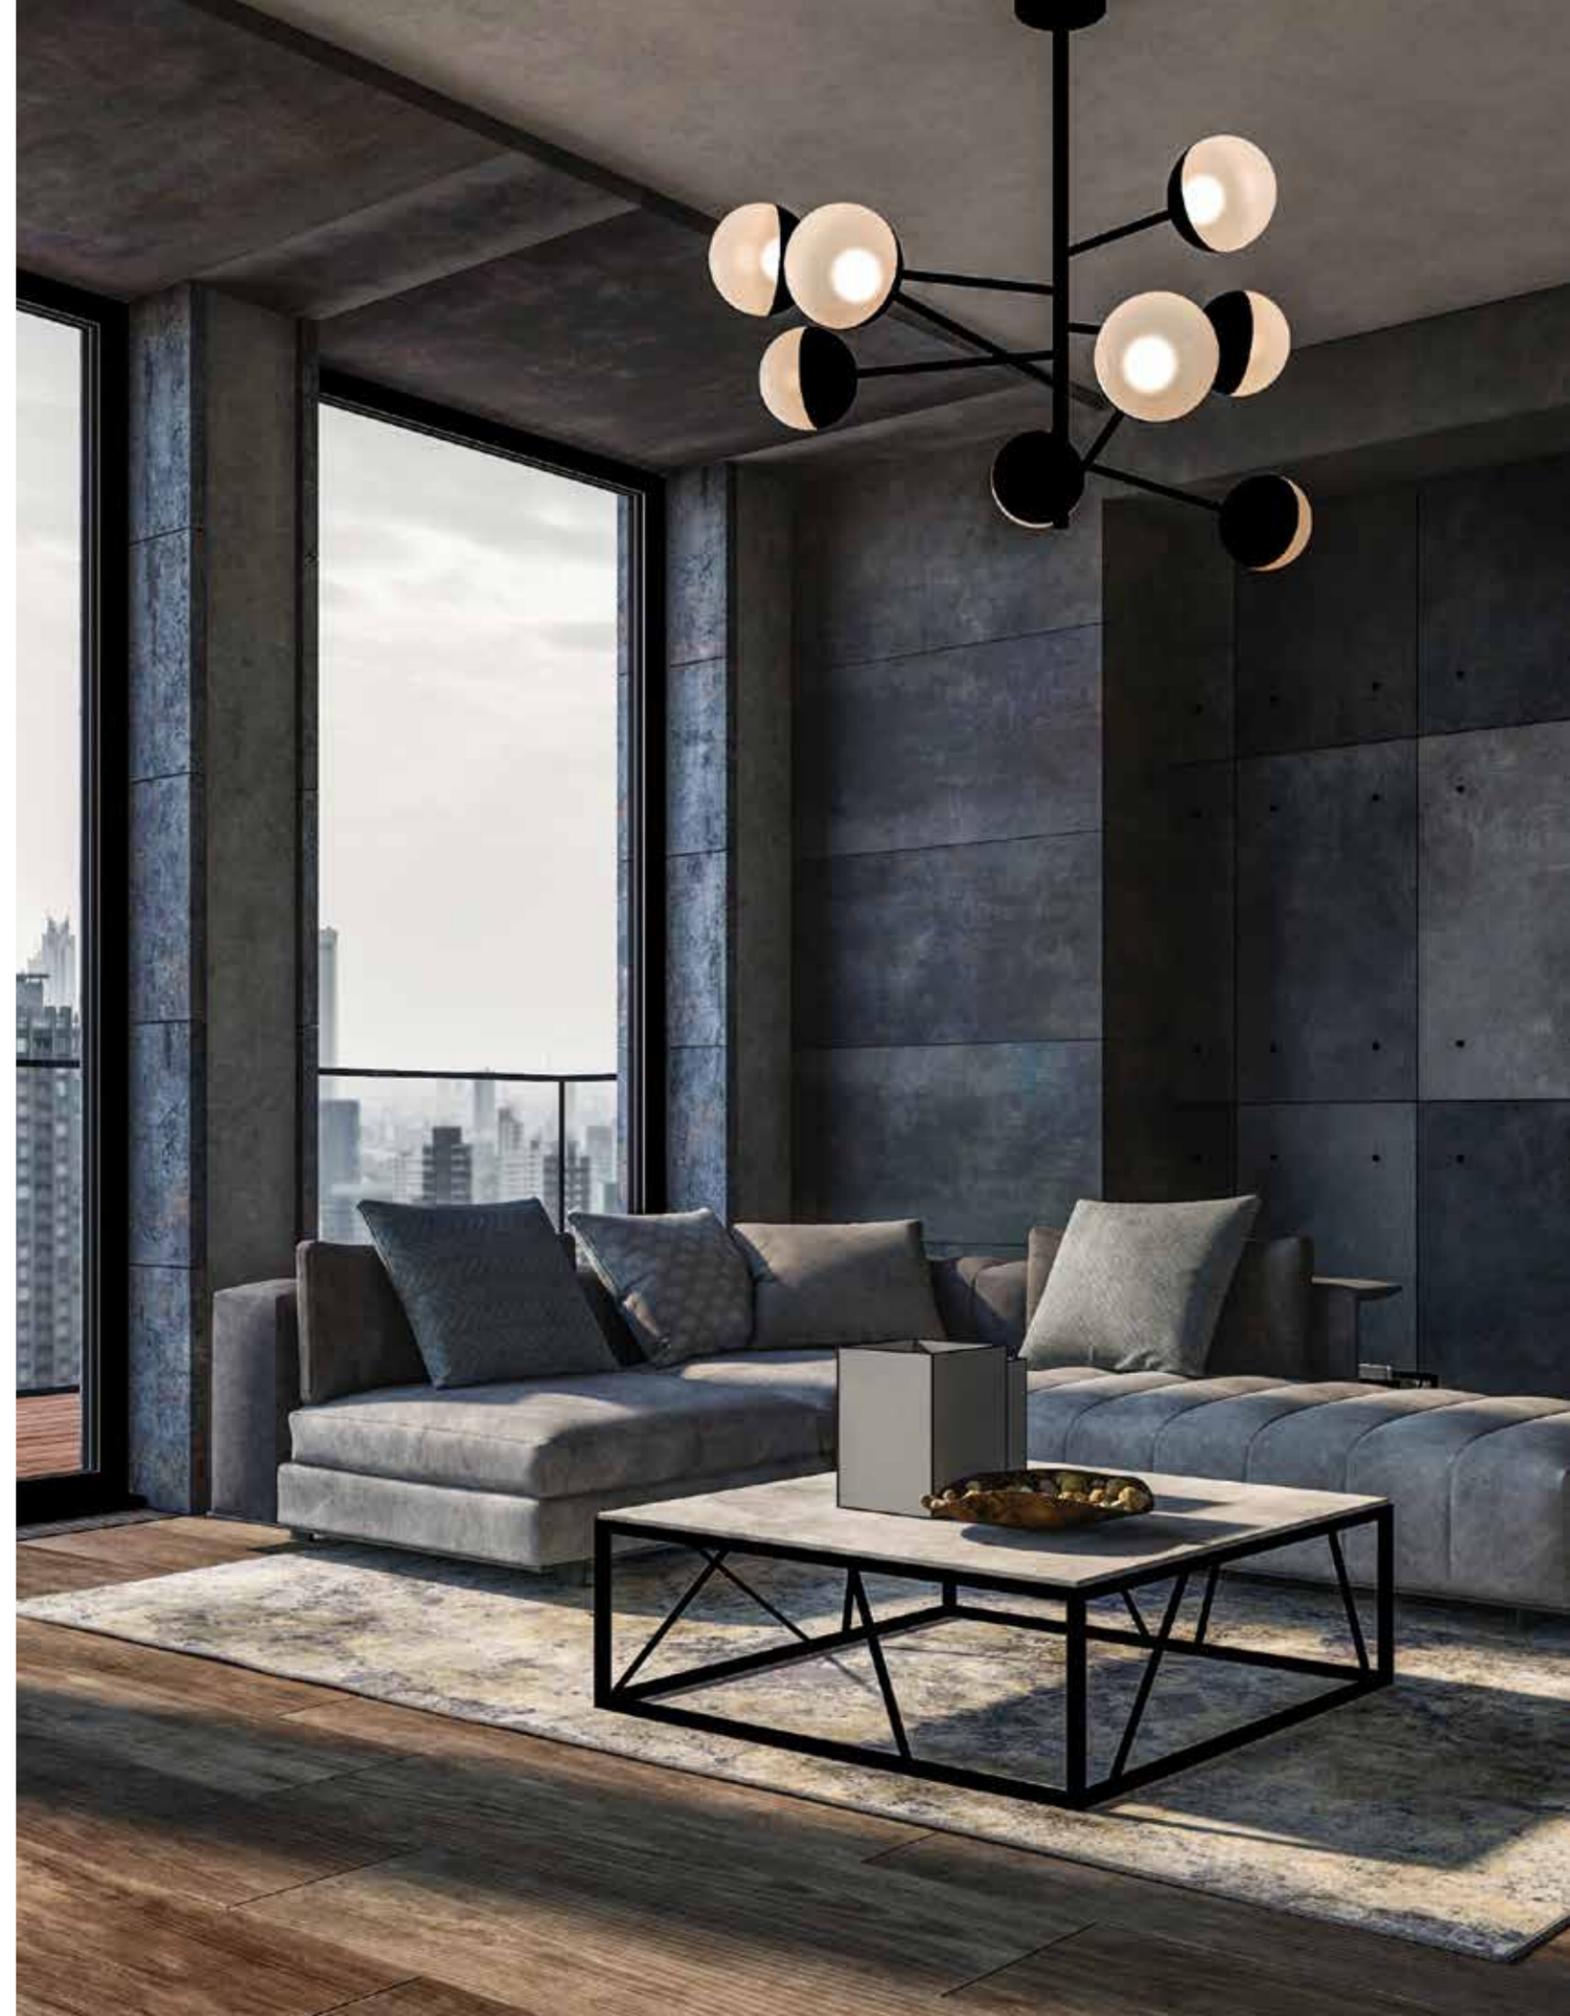

3. RENEW

Clean, clean and clean again. It's that important. You want your home to look guest ready. Organize each room so that it looks like a showcase. A fresh coat of paint can go a long way to dramatically improving the look as well.

Sound overwhelming? Here's the good news: Everything you remove, clean or repair helps to sell your home faster and for a better price. So it's like getting paid to do it!

Tips for preparing your home

Work through our checklist here to make sure your home is prepared for the market:

Declutter

- Donate or sell unwanted items in good condition
- Discard broken or unusable items
- Donate or discard duplicate items
- Rent a storage unit if needed
- Put away all items on kitchen and bathroom counters
- Put away pet toys and children's toys
- Organize closets
- Remove extra pillows and blankets from chairs and couches
- Organize bookshelves and cluttered areas

Depersonalize

- Pack away family photos
- Pack away knick-knacks
- Pack away collectibles
- Paint bold wall colours a neutral colour
- Remove magnets and postings from the fridge
- Remove valuables, such as jewelry, and store off-site in a safe, secure place

Curb Appeal

- Clear the walkways of debris
- Mow the lawn/shovel the snow
- Clean the windows
- Clear the gutters
- Plant flowers and trim greenery
- Freshen up the paint on the front door and garage door

Minor Repairs

- Fix dripping faucets
- Fix or replace broken doors and locks
- Fill, sand, and paint any holes in the walls
- Re-caulk old tile in bathrooms and kitchens
- Replace or fix broken windows

Deciding on the right offer is more complex than saying yes to the highest bidder.

Step 4

Reviewing Offers

Once all offers have been made, it's time to sit down and review the best possible options. Throughout the offer process, you may hear terms that you are unfamiliar with.

Here is a quick and easy overview of some common terminology.

- 1 FIRM OFFER**
An offer made without any conditions.
- 2 CONDITIONAL OFFER**
An offer containing conditions that must be met before the sale is final. Typical conditions include a home inspection, approval on financing, or the approval of a status certificate for a condominium.
- 3 BULLY OFFER**
Also known as a pre-emptive offer, a bully offer is presented before the official offer review date set by the seller's agent.
- 4 MULTIPLE OFFER SCENARIO**
When two or more offers are presented to the seller.
- 5 COUNTER-OFFER**
An offer presented back to the buyer that is a revised version of their initial offer. This can include an adjusted price, conditions, or closing date.
- 6 INCLUSIONS & EXCLUSIONS**
Items in the home that are included or excluded from the sale. These typically include light fixtures, appliances, or decorative items. Also referred to as chattels.

Step 5

Negotiating Expertise

When an offer comes in—perhaps multiple offers—this is where negotiating expertise counts to ensure you achieve the highest price and best terms. Depending of course on market conditions, chances are an offer will be higher or lower than your asking price. Don't be concerned or offended, it's normal. In fact, the best way to think about an offer is as a starting point to a conversation.

THINGS TO KEEP IN MIND WHEN NEGOTIATING:

COUNTER-OFFERS ARE NORMAL

Expect some back and forth. They offer, you counter and eventually come to an agreement.

PRICE ISN'T THE ONLY THING

You can negotiate on price, offer conditions, assets included. Don't get stuck on one thing.

Momentum is the secret

Things happen fast at this stage. That's why having skilled agents to represent you is vital. We will walk you through the details of the offer or offers, make recommendations on how to proceed, and keep the process moving forward until we have success on your terms.

Once you accept the final offer, the buyer provides a deposit to be held "in trust" until conditions are met and the transaction is final and title is transferred.

If there are conditions to be met, usually within a specific time frame, we will handle all of these details and ensure a notice of fulfillment is signed and your sale is firm awaiting the closing day.

What negotiating 1% more for your home looks like

Negotiating just 1% more for your home can mean thousands more to your bottom line.

\$600K	\$6,000
\$800K	\$8,000
\$1M	\$10,000

Step 6

Closing the Sale

Your agent will act as your liaison between key stakeholders throughout the closing process. This includes the buyer, buyer's agent, real estate lawyer, and any other involved parties.

Once all paperwork has been completed, your agent can help you organize and coordinate your move, if desired. The keys to your home will be exchanged on closing day, and your sale will be complete!

THE COST OF SELLING

There are several costs associated with the selling process. The exact price of each will vary:

LEGAL FEES

These include real estate lawyer fees, which will vary depending on the legal firm you choose.

HOME INSPECTION

We recommend sellers receive a pre-listing home inspection to identify any issues in their home.

STATUS CERTIFICATE

Needed for condos only. The status certificate is a set of documents that describe the legal and financial details of the condo board.

RENOVATIONS AND STAGING

To gain top dollar for your home, renovations or staging services may be recommended.

MOVING COSTS

Will you be hiring a moving company to help you move? Will you be renting a truck? Consider these additional post-sale costs.

CLOSING COSTS

These can include Land Transfer Tax, Municipal Land Transfer Tax (for Toronto properties), Title Insurance, and more.

MORTGAGE DISCHARGE FEES

Your mortgage provider may require a discharge fee.

COMMISSION

Will be outlined in the agreement between you and your agent based on the service package selected.

Post-Sale Reminders

Here is a helpful checklist you can use to get ready for closing day.

- Arrange to have utilities disconnected on closing day
- Arrange to discontinue Internet and cable services
- File change of address notice at the post office
- Change shipping address for subscriptions and delivery services
- Confirm moving and delivery dates with movers
- Pack an essentials box for everything you will need on moving day
- Close all shut-off valves to sinks, toilets, dishwashers, fridges, etc.
- Leave all house keys, remotes, mail keys, etc. for new owners
- Leave all manuals, receipts, and warranty information for new owners
- Check all drawers and closets for missed items
- Turn off all light switches
- Close the blinds and windows
- Lock the doors before you leave
- Cancel your homeowner's insurance policy once the Title has been transferred
